BE DONE AT THE MEETING. Messrs. Bixby, Purser, Hart, Alderman Reilly and other promoters of the anti-Tammany movemen were busily engaged on Saturday in the preliminary or ranization of their respective districts. Mr. Purser took charge of the interests of the Fifteenth Ward, and has led in enrolling a large number of electors who received information from the upper districts that several bers of the Tammany General Committee wer dy to secede and join the new Democratic organiza-In several of the districts action was deferred un til after to-night's meeting, so as to conform with the rules there to be laid down for the guidance of Assembly

This meeting, to be held at Boom 24, Cooper Institute, this evening, is not a mass meeting, as aunounced a some quarters, but a business meeting for the purpose pleting the work begun at Delmonico's last day evening. About one hundred delegates will attend, and the Committee of Seven appointed last week will hand in their report. This will be in the shape of resoluhand in their report. This will be in the shape of resolutions calling upon all democratic voters opposed to Tammany to organize at once in the various districts, and
then to select five delegates each, to constitute the new
"Democratic County Committee of New York." This
will bring the number of memters of the
new General Committee up to 105, a body of
considerably smaller proportions than the Tammany
Committee. The resolutions will also recommend that
the General Committee shall at no time interfere with
matters purely local, and shall leave such cutirely to the
control of the Assembly Districts. This is intended
mainly to secure the election of delegates to the State
Convention in necordance with the rules previously
adopted by that body, and which, it is claimed, are annually violated by Tammany. The anti-Tammany men propose to elect their delegates in their Assembly Districts,
without any interference on the part of the General
Committee.

THE FIRE COMMISSIONERS.

STATEMENT OF PRESIDENT PERLEY IN REGARD TO THE CHARGES OF THE COMMISSIONER OF AC-

Joseph L. Perley, President of the Board of of Fire Commissioners, returned from Boston on Saturday. A reporter of THE TRIBUNE called upon him yesterday to obtain his views upon the charges that have been made against the Commissioners. Mr. Perley made substantially the following statement:

Originally no charges were made against the Commis-stoners, but Commissioner of Accounts Howe made a re sieners, but Commissioner of Accounts Howe made a report, in which certain allegations were made of transactions that were not creditable to the Commissioners of this Department. This report was handed to ex-Mayor Vance in December last.

Mr. Vance requested me to hand him my answer at the time. I did not know at that time why the request was made and neither did I care. When Mayor Wickham came into office in January, he found the document on his desk and handed it to me, requesting that I and my associates should make a reply. We made a reply in detail, which was, as we supposed, entirely satisfactory The Mayor assured us that he did not know what action bewould take upon the subject, but he would consult with us before he came to a final decision. He said further with us before he came to a final decision. He said further that if he published the report of Mr. Howe, he would publish our answer with it. The Mayor seemed so friendly that I considered the matter had ended satisfactorily. A few weeks after my interview with the Mayor, I was informed by the Secretary of our Board that it was desirable to make some changes in the chiefs of battalions. I asked what changes were required. The Secretary said that by the reduction of these officers to the ranks the matter could be hushed up. I replied that I would not consent to any such action, and I would not degrade any man without just and sufficient cause. Here the subject was dropped, and I knew nothing further of it until I saw the correspondence between Gov. Tilden and Mayor Wickham, published in The Tribuxe a few days ago.

and Mayor Wickham, published in The days ago.

In relation to the charges made against Mr. Perley that he had violated Section 109 of the Charter of 1870; and Section 95 of the Charter of 1873, which prohibits any officer of the City Government engaging in contract, work or business, the consideration of which is paid by the city. Mr. Perley said that he had fully affishered those charges in his communication to the Mayor, which had since been transmitted to the Governor, and that it would not be proper to make any public reply to them at the present time. He said the charges that there were persons of bad character in the employment of the Department were also fully answered in the same communication.

UNION PACIFIC DISSENSIONS. BUIT AGAINST JOHN DUFF-HIS PROBABLE RETIRE-

MENT FROM THE TRUSTEESHIP OF THE LAND GRANT MORTGAGE.

Serious complications have arisen among some of the directors of the Union Pacific Railroad Company which threaten to culminate in prolonged litigation unless adjusted by arbitration. The circumstances are

John Duff of Boston has long been known in connection with the Union Pacific Railroad. He has been a director and officer and still is trustee of the land grant mortgage. Out of this arises all the trouble. It is alleged that Mr. Duff, while acting as the trustee of the Company, selling lands, &c., received a large amount of money, which he handled as if it were his private property. Shorily after the panic the Company needing ready money. Mr. Duff, it is said any plied the railroad with the money which he had derived from his operations under his trust for the Company, but represented that it was his own, and charged heavy rates of interest. The officers of the Company discovering this fact demanded the return of this interest, and failing to receive it have begun a suit against Mr. Duff for \$30,000 and interest, the amount which it is alleged was discovered to have been paid to Mr. Duff in this way. The summons in the case has already been served, but, pending the service of the other papers, a meeting of the Board of Directors was held, at which Meerrs. B. E. Bates, Elisha Atkins, and F. Gordon Dexter of Boston were appointed a committee to investigate the matter, with a view to the adjustment of the complications. Mr. Duff claims that the Company owes thin a large amount for services rendered as trustee, larger indeed than the amount claimed from him, and he desires a settlement on that basis. One result of the matter will be the retirement of Mr. Duff from the position of trustee of the land grant mortgage. Mr. Duff appears to be retiring from nearly all his interests in the Union Pacific Raitrond and its subsidiary enterprises, one of his latest operations being the transfer of his interests in the Atlantic and Pacific Telegraph Company. ered to have been paid to Mr. Duff in this way. SUICIDE FROM DOMESTIC TROUBLES. The second suicide within a week at French's Hotel occurred on Saturday afternoon. On Friday night man registered his name in the office as John Parmenter, and occupied a room during the night. At about 2 p. m. on Saturday the clerk sent a chambermaid to the com with orders to clear it up for another occupant. found the door locked on the inside, and, climbing up to the transom light, saw the occupant still in bed. He was lying half on his side, with his head thrown forward in a cramped position. On the table was an empty bottle and a letter. The chambermaid called a porter to look into the room. The porter thought that the man was dead, and so informed the clerk at the office. An officer was sent fer, and shortly afterward Deputy Coroner Cushman arrived. A man was holsted into the room through the transom, and the door was opened by him.

After Dr. Cushman had examined the body and found that life was extinct, he opened the letter lying on the table. The writer said his name was not Parmenter, but A Barrington Irvine, and that he was a son of the Rev. Mr. Irvine of Atlanta, Ga. He stated also that he was about to commit suicide on account of domestic infelicity. If his father chose to bury him he might do so, but in any other case his body was to be delivered to some medical college for scientific purposes. The papers found on the body indicated that Irvine was the proprietor of The Centennial Gazette, a paper published in Philadelphia. to the transom light; saw the occupant still in bed. If

TWEED'S CONFINEMENT. The argument of Tweed's counsel for a re duction of the amount of bail now demanded in the civil mits will be made to-day before Judge Donohue of the Supreme Court. It will be opposed by Wheeler H. Peckand the District-Attorney. Tweed's health has not been so good for the past two or three days as during the month preceding his release from the Penitentiary. The excitement attendant on his release, his examination in the court-room and District-Attorney's office, and removal to Ludlow-st. Jall, and the hot weather of the past three days, have combined to aggravate the complaint from ich be has suffered so long. He is attended daily by Dr. Schirmer, his family physician. He still denies himself to all save his counsel and a few relatives and friends

CITY HALL INTERESTS. Mayor Wickham has been absent from the sty for the past two days. His place has been filled by President Lewis of the Board of Aldermen. It is unferstood that the Mayor, in the retirement of his country tome has been considering who are the best men for Rail road Commissioners under the Rapid Transit act, and road Commissioners under the Rapid Transit act, and has been perusing carefully the report against the Park Commissioners, and examining other documents.

Park Commissioners Stebbins and O'Donohue called at the Mayor's office on Saturday to consult with him in regard to the proposed appointment of Commissioners of Estimate and Assessment by the Supreme Court to lay ent a new parade ground on the upper part of the island. The Mayor and Controller oppose the project on the ground of expense. They estimate that it will cost the strong of expense. They estimate that it will cost the strong of expense the body may be supperfected about the taken. The Commissioners will call on the Mayor to-day.

Mayor's Marshal Kelly granted 343 licenses during the past week, and received therefor \$1.538 25. TAMMANY MEN SET ASIDE FROM OFFICE-THE CON-

The removal, by Controller Green, of E. D. Gale, one of the Secretaries of the Tammany Committee on Organization, and an enthusiastic supporter of John Kelly and Mayor Wickham, from his position as clerk in the Bureau for the Collection of Arrears of Personal Taxes, a position he has held for several years, has caused a good deal of comment among the adherents of Tammany Hall. It is deemed by them another proof that the Controller is endeavoring to break down the organization because of his opposition to Mayor The first Saturday concert in Central Park Wickham and John Kelly. Some time after the death o Gen. Alexander W. Harvey, the late head of the Bureau for the Collection of Personal taxes, the Controller wrote to Mr. Gale, desiring him to forward to him the accounts

to Mr. Gale, desiring him to forward to him the accounts of Gen. Harvey, and the fees due the city. Mr. Gale replied that Gen. Harvey's accounts were in the possession of his widow, and that certain fees, amounting to about \$400, had been expended in paying the process servers. This was followed on Saturday by an order of the Controller removing Mr. Gale.

Mr. Gale does not recognize the power of the Controller to remove him, as the bureau to which he is attached forms a part of the Law Department, and therefore the only person who is authorized to remove him is the Corporation Counsel. Among the clerks in the Tax Office removed last week by the order of the Controller was A. B. Galdwell, a prominent member of the Tammany Hall General Committee, who has held a position in the Tax Office for several years. Other removals of Tammany men are expected to be made soon. There are many who are watching to see whether the Controller will openly ally himself with the opposition to Tammany Hall. The leaders of the opposition movement are hoping that this will come to pass.

New-York detectives have traced several abductions of children in the city during the past Winter to this man, and have asked for a requisition from Gov. Bedle, in order to take Schmidt to New-York for trial. It is not probable that he will be allowed to leave the State, as two children were found in his rossession at the time of his arrest and identified by their parents, who said they were stolen two weeks before.

The officers state that Schmidt, who is a fine-booking man, was in the habit of stealing children under two years of age who were unable to tait, and leaving them with people who advertised for children to adopt, representing himself as a widower. He usually succeeded in obtaining money.

THE LE SING OF DISREPUTABLE HOUSES. . the Editor of The Tribune.

SIR: In your issue of Saturday, June 26, 1875, under the head of "Prevalence of Crime," Mr. John Gilsey, who is stated to be a member of the Protective Association, is alleged to have testified before the Assem bly Committee for the Investigation of Crime, that William Tucker is the owner of several of these disorderly bouses. He had remonstrated with Mr. Tucker

orderly houses. He had remonstrated with Mr. Tucker on the subject, telling him that the houses were injuring the value of his (Gibey's) property, and requesting him to have the nuis-noe abated; but Mr. Tucker replied that he would let his houses to the persons from whom he could obtain most rent."

I am part owner of property in the district mentioned, and to my own knowledge the leases under which it is held each contain a clause that the property is to be used "for respectable purposes only;" the rents are low, so that respectable people can afford to hire the premises mentioned, and several of the houses are now empty for the reason that they are not allowed to be used for disreputable purposes. I desire to say further, that I never had the conversation alleged with Mr. John Gibsey, and that I never told him that I would let the houses mentioned to the persons from whom I could obtain most rent, and that the statement to that effect is entirely untrue; and further, that for a long time I have had nothing to do with the renting of the projecty mentioned.

WILLIAM TUCKER.

THE OLD NORTH DUTCH CHURCH. To the Editor of The Tribune.

SIR: In your paper of to-day you speak of special attractions being the weekly band concert and the the demolition of the North Dutch Church as an instance of the "general abandonment of an unfruitful field." will you allow me space to say that in this case there is no abandonment. In the building adjoining the site of the old church there is a spacious and commodious apartment where public worship is maintained free of all cost to the worshipers, and where the Gospel is preached as faithfully and as eloquently as it ever was in the edifiec which has just been taken down. This room will hold as many persons as have been in the habit of attending the North Church at any time within the last 12 years. It is then reasonably clear that the Collegiate Consistory have not deserted the down-town field.
